

## **„Ad hoc announcement according to § 15 WpHG“**

### **Business development in 2009**

Einhell Germany AG will announce at the general annual meeting on 19 June 2009 that the group turnover will presumably reach about Euro 180 to 185 million (previous year Euro 200.9 million) in the first 6 months of the financial year 2009.

Earnings before tax will probably reach a profit margin of around 5%.

In spite of a decrease in turnover based on the difficult worldwide economic conditions the Einhell group will again reach a good result in the first half-year and will prove the sustainable profitability of Einhell.

Moreover, Einhell Germany AG would like to point out that the follow-up financing for the bonded loan which will expire in July 2009 is completed.

Due to the very solid financing structure and the sustainable positive development of the result within the group Einhell managed to secure a long-term financing at good conditions also for the next 5 years.
