

## **„Ad-hoc-announcement according to § 15 WpHG“**

### **Financial figures for 2011 – outlook to the year end**

Einhell Germany AG (ISIN: DE 0005654933) which is listed under Prime Standard of Deutsche Börse AG announces the following:

From January to September 2011, the Einhell Group generated revenues of €296.9 million. This represents an increase of around 2.5% in comparison with the previous year.

Profits before tax amounted to €16.6 million with a pre-tax yield of 5.6%.

The cautious development of the second quarter has continued in the second half year 2011. The debt crisis and ongoing uncertainty on the international financial markets have greatly weakened private consumption and led to massive currency turbulence. The planned targets in revenues and earnings for the business year 2011 could not be met.

The Board of Directors expects that the financial year 2011 will see a revenue increase of 2-3% as against the previous year. The pre-tax yield will probably fall again slightly before the end of 2011.

Landau a. d. Isar, 17 November 2011

The Board of Directors
